VISION

To be the leading manufacturer and supplier of Airshrink, Heatshrink, Medium, Low Voltage Joints, Terminations, accessories and related products in Southern Africa.

MISSION

To provide engineering solutions to our clients through technical expertise, attention to detail, premium service and product quality.

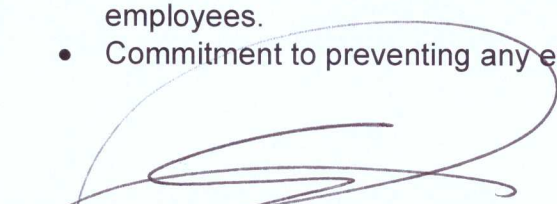

We will strive to maintain a flexible and dynamic approach to both manufacturing and management philosophies, in order to continually adapt to an ever-changing business environment. Our aim is to pursue real growth, thereby providing security and continuity for all our stakeholders.

POLICY

We have developed an extensive quality management system in line with the requirements of ISO 9001.

We are committed to maintain and continually improve the effectiveness of our quality management system and to comply with all applicable-, regulatory- and statutory requirements through:

- Understanding the needs and expectations of all our business partners and building lasting relationships by constantly exceeding their expectations.
- Effective management that ensures that our company policy, objectives and targets are implemented, maintained and communicated. This is set and periodically reviewed through participative stakeholder management- and risk management meetings as well as internal audits.
- Providing a safe and healthy work environment, eliminating hazards, reducing OH&S risks and preventing any injuries, ill-health and accidents for all levels of employees, customers, contractors and/or other interested external parties.
- Actively encouraging communication, consultation, participation, education and training of employees.
- Commitment to preventing any environmental pollution and preserving the environment.
